GEORGIA TECH RESEARCH ENGINEER NAMED
TO U.S.S.R. POPOV CONGRESS

April 25, 1979

For Immediate Release

ATLANTA, GA.....A Georgia Tech electronics expert, Dr. James C. Wiltse, has been named by the IEEE (Institute of Electrical and Electronics Engineers) to serve as a delegate to the U.S.S.R. 1979 Popov Society Congress to be held in Moscow in May, 1979. Wiltse, chosen as a 1979-80 National Lecturer for the IEEE, will also present a paper on advanced electronics technology to the Russian scientific conference.

Leningrad and Kiev are two cities to be visited as Wiltse and other delegation members will become acquainted with Russian research centers, educational institutions and industrial laboratories between May 12-26.

Wiltse, who joined the administrative staff of Tech's Engineering Experiment Station's research operations a year ago, was formerly the Director of Research and Technology at Martin Marietta's Orlando Division. He is listed in American Men and Women of Science, Who's Who in Engineering, Who's Who in the South and Southwest, Dictionary of International Biography, and Men of Achievement. He received the 1975 IEEE Outstanding Engineer of the Year citation for the southeastern U.S. and has merited several other noteworthy awards.

Author, inventor and editor of national publications, Dr. Wiltse is nationally recognized as an expert in the field of millimeter-waves, an understanding of which is valuable to modern national defense systems.
