ENERGY WORKSHOP

July 24, 1979

PLANNED BY TECH

For Immediate Release

ATLANTA.....Georgia Tech will present a workshop on industrial energy conservation in the food industry on the Tech campus in Atlanta, Wednesday, August 15, from 9:00 a.m. to 3:30 p.m.

All industries in Georgia are invited to attend.

The workshop will examine the energy systems common to the food industry. An emphasis will be placed on problems most frequently encountered in small- to medium-sized companies.

The workshop is intended primarily for plant management and engineering and maintenance personnel who are responsible for the day-to-day operations of the plant. Topics to be covered include energy management, heat recovery from refrigeration equipment, lighting, electrical demand, and energy conservation techniques in the food industry.

Representatives from the Industrial Energy Extension Service will speak at the workshop. IEES is conducted by Georgia Tech's Engineering Experiment Station under the sponsorship of the Georgia Office of Energy Resources.

The workshop fee, which includes a luncheon, is \$15 per person. Registration should be made as far in advance as possible to ensure a place in the workshop.

For additional information, please contact Danny Reed or Bill Moran at Georgia Tech, Engineering Experiment Station, Atlanta, Georgia 30332, telephone (404) 894-3412.
